Please fill out the following information in order to assess the contents of your home more adequately if a disaster were to occur. Remember to keep the brochure in a safe place not, on your home's premises; for example, a safety deposit box, your desk at work, or a relative's home.

Details are very helpful, so the more information you can provide the more useful the inventory will be. Also, photographs help in the assessing process, so be sure to keep them in a safe place with your Home Inventory.
